

## SCHSL TUESDAY REMINDERS 4-2-19

If your school participated in a school or community clean up during the week of March 18-23, please fill out the Living Clean form on the League Website. Gold schools will be Ejection Free & Litter Free. Silver schools will be Ejection Free OR Litter Free. This will count towards your **School Sportsmanship Award** for the 2019-20 school year.

---

The following survey is being sent out by the sports season review committee to solicit feedback on the 75% rule which was a topic for discussion in the classification meetings and at the spring conference. Your input will be important in addressing this issue later this month.

# Google Forms

Sport Review Committee has invited you to fill out a form:

## [75% Rule Survey](#)

Please select one of the following concerning the 75% Rule. Please complete by April 15th.

**[FILL OUT FORM](#)**

When was the last time you were offered a SOLUTION instead of a problem?

## THE NFHS NETWORK DELIVERS

The NFHS Network is the South Carolina High School League official live streaming partner and they now have a SOLUTION that automatically captures and broadcasts the video of your sports events. It's completely automated - no staff required - and will make your coaches' lives easier. One install and that's all.

There are no annual payments or recurring costs as the system is available for purchase with a one-time investment. **And they are making the offer even better by cutting the price in half - they will provide your schools with two automated live production systems for only \$5,000.**

By having one system for indoor events and one for outdoor events, it couldn't be easier to make sure that fans of all your sports and teams can follow the action when they can't be there in person. Plus, your school will earn money through a subscription revenue share and include school sponsors in the broadcasts. Now this is how technology is supposed to work for you.

The automated live production will capture every event - all sports, all levels. Plus, the system will seamlessly export video from games and practices into all coaching software platforms. No heavy lifting! Parents and families will never have to miss another game and your coaches will love the ability to create game and practice film without hassle or headache.
