11	Lack of a solid restart plan at this point	7/8/2020 12:54 PM
12	A significant outbreak or multiple outbreaks of Covid 19 among students and staff or in our community during the course of the school year that would cause a shutdown of the school and a return to distant virtual learning for the entire school or district	7/8/2020 12:10 PM
13	Making political/economic decisions that do not put safety first.	7/8/2020 11:01 AM
14	Our greatest concern will always be the safety of our students and employees.	7/8/2020 10:05 AM
15	Our students and/or faculty becoming infected with the virus.	7/7/2020 8:42 PM

27	Greatest concern is the lack of communication and vision presented from the leadership in the SCHSL and the executive committee. Schools and districts have been left to wonder and plan for sports and sport seasons with little to no direction as to what access our student athletes may have. Their safety mentally and physically is our priority but having no guidance as to access and timing is putting a significant strain on our planning and ability to communicate with our community. 33	The growth of the virus is very high in our community at the present time.	7/7/2020 9:25 AM
34	Never returning to normalcy academically and the have nots being left behind. Also AAU and non sanctioned sports replacing high school athletics.	7/7/2020 9:02 AM

50	My greatest concern is being able to protect our students, staff, and families from COVID-19 while they are under our care. I hate to think worst case scenario, but I think we must do so when thinking of how to protect our kids. When making plans, I think we owe it to our students to do our best to keep them safe in the classroom, during transit, and during extra-curricular activities. I would hate to think that that our actions, or lack of action caused an out break like we have seen after large gatherings in places around the country, and a kid loses his/her life or a family member. 57	Resurgence of virus closing school	7/6/2020 7:41 PM
58	My biggest concern is placing others at risk of infection resulting in death or long term health issues. We have several who are at risk due to health factors.	7/6/2020 6:38 PM
